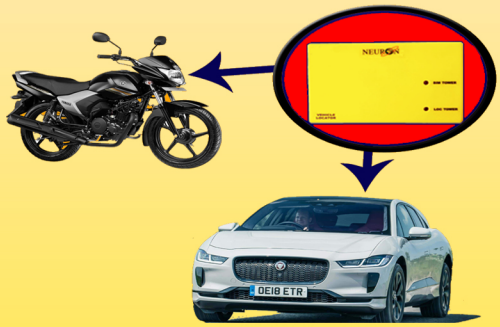
NEURON VEHICLE LOCATOR



Neuron Vehicle Locator is technically advanced and highly accurate specific location finder for all kind of vehicles and also for anything you want to locate around the world.

New Innovative Technology in the World

Almost throughout the world, all the location finder unit manufacturers are Internet Server based units. So Internet must be needed. For their server maintenance, they collect maintenance charge every year from you. So for Internet Server you depend them all the years. But in our Neuron Vehicle Locator, we are using new Advanced Technology, so Internet Server is not needed. No Expenditure throughout the life period.

"Buy and forgot us"

Special Features:

1. *You can know the location of a vehicle through SMS by simply giving a missed call.*
2. *Over Speed Alert Message Intimation along with Special Sound.*
3. *For each & every time, if you start or stop your vehicle, you can automatically get the Vehicle's Start Time, Off Time and Total Running time along with the location.*
4. *You can know how much time your vehicle stopped in a particular place along with location.*
5. *At any moment if you want to check your vehicle speed and location, just sending a message to your Vehicle Locator unit, immediately you can get your vehicle speed and location.*
6. *At the end of every day, you can get the Total Running Time of your vehicle automatically.*

1st in India without server

7. *If you purchase only one unit of Neuron Vehicle Locator, you can use this unit to anyone of your vehicles, because it is very small and easy to shift.*

8. *If you purchase 6 numbers of Neuron Vehicle Locator units, you can get all the 6 units location details with in your single android phone, with individual vehicles name, with individual attractive color icons, with current location and time.*

9. *If you want to trace your vehicle location and speed, without driver's knowledge you can use our Neuron Vehicle Locator.*

10. *At frequent time interval you can get the location details of a vehicle automatically with time.*
    Example:
    If you fix the time interval as 10 minutes, you can get the location details of the vehicle for every 10 minutes automatically. This time interval can be vary or adjust by you according to your requirements (Say for every 10 min, 20 min, 30 min).

11. *We provide the following features to any vehicles such that, side window glasses opening or closing automatically and steering lock, Anti-theft monitoring and Remote lock/open facilities, Fuel consumption monitoring for your vehicles.**

12. *Just by a single touch in our Android App, you can get your location details of the vehicle's or anything you want to locate around the world. For this we developed our own "NEURON VEHICLE LOCATOR" Android App to monitor your vehicle location.*

13. *Lifetime backup storage facilities are available for the following details:*
    1. Location, 2. Speed, 3. Over speed, 4. Key ON/OFF with location and
    5. Vehicle Total Running Time at the end of every day.
    a. *You can get all the above parameter backups for a particular day fully.*
    b. *You can get a particular parameter at a particular time at a particular day (say on 6 th march 2018, number of over speed's between 2 PM to 3 PM).*
    c. *You can get all the above parameter's backups in printout also.*

14. *In our Vehicle Locator, there is a feature for your vehicle safety called as "Pre-Fixed Location mode". In this mode, while your vehicle travelling outside, the entire locations with timing details about your vehicle are saved in our unit well in advance as per the details provided by you to us.*
    Example:
    a. *Every day your bus regularly reaches the Bangalore at 6 AM. If the bus does not reached the Bangalore at 6 AM, immediately an alert message send to the bus owner "Your bus is not yet reached the Bangalore", along with the current location with time details.*
    b. *The Pre-fixed locations and bus reach timing's may change as per your requirements at any time.*

OVER SPEED MONITOR:

15. *Our Neuron Vehicle Locator monitor your vehicle over speed, for each and every time, if your vehicle exceeds the over speed limit (Over speed limit set 70 km / hour) immediately you can get an alert message at which speed your vehicle is travelling now. Over Speed is highly dangerous, so you get this message with special notification unique sound.*

16. *You can change the over speed limit of your vehicle according to your requirements (Ex: 70 km / hour, 90 km / hour, 100 km / hour).*

Note:

You can buy a sim card for our unit, with better network support at your location.
